

Non European Union (EU) residents can claim a tax refund on purchases personally exported from EU country. Tax Free Shopping service in Lithuania is provided by UAB „Global Blue Lietuva“.

*Notice:* Residents of EU countries can not claim VAT for purchases made in EU.

### **How it works?**

- Look out for the Global Blue logo; if you can not see it, please ask the shop staff if they provide the service. Minimum purchase amount should exceed **200 Lt.**
- In order to obtain a refund on purchased goods you have to prove exportation with a customs stamp on your tax free form. Show your goods in unused condition, receipts, and the tax free form to customs officials before leaving the country, and have your form stamped. When travelling within the EU, show your purchases and documents to customs officials in the last EU country you visit before leaving Europe.
- Customs validation should be obtained within 3 months plus the month of purchase. After the customs validation there is no expiration date for Lithuanian tax free forms.

*Please observe that the final refund you receive will consist of the VAT total, minus an administration fee. Tax Free Shopping doesn't apply to goods that are shipped or sent by courier.*
