### **WEIGHING PROCEDURE**

**Drained Weight:** The drained weight shall be determined in the following manner: Empty the contents of the container upon a circular sieve, and distribute the product evenly. Without shifting the product incline the sieve slightly at an angle of 17 to 20 degrees to facilitate drainage, allowing draining for two minutes. The drained weight is the weight of the sieve and product less the weight of the dry sieve.

### **NET DRAINED WEIGHT TOLERANCES**

The tolerance concerning the net drained weight mentioned on the container shall not exceed the following percentage scale, providing the sample's mean net drained weight is equal to, or in excess of, said declared weight :

- 5% for containers with drained weight less than 200 gr.
- 4% for containers with drained weight between 200 and 500 gr.
- 3% for containers with drained weight between 500 and 1.500 gr.
- 2% for containers with drained weight in excess of 1.500 gr.

### **QUALITY COMPLAINS**

According to the Commercial Invoice Terms any complains should be done with the receipt of the goods. Additionally your Quality Control Report must be sent for every delivery to us as soon as possible.

Complains after that date will be rejected unless they are accompanied with your weekly maintenance and storage records.

The above specifications are an extract and moreover in accordance to COI/OT/NC N<sup>o</sup>1 DECEMBER 2004 and Codex Alimentarius 66-1981 (rev. 1987)
