3. BAKING INSTRUCTIONS

USE PARCHMENT PAPER

Leave enough space between the products, so they have plenty of room to bake.

Remark

Baking time and temperature can vary according the type of oven. Make sure the oven is properly preheated. While preheating, set the oven 25°C higher than the specified baking temperature. Because opening the oven causes the temperature to drop.

Add steam at the beginning of the baking process. This gives you a crispier, puffier finish. Allow the steam to escape 5 minutes before the end to ensure that the products are fully baked.
