Declaration of Compliance

with the EU regulations No. 1935/2004, No. 2023/2006, No. 852/2004 and Council Directive 84/500

We hereby confirm that kitchen bowls of different sizes, item nos 23316 to 23335, which we deliver to your company, and which are intended to come into contact with food, are in full compliance with the above mentioned regulations. Particularly by use of appropriate material, it is guaranteed that

- The material is sufficiently inert to preclude substances from being transferred to food in quantities large enough to endanger human health
- no active or new types of materials are used

The kitchen bowls are made of stainless steel AISI 200, which is known to be unproblematic. The Supply Chain process underlies regulation 2023/2006.
